

# Self-inking Rubber Stamps

**High quality self-inking  
rubber stamps in any  
design, with next  
day delivery**

★ **Create your own design or  
let us help**

Just let us know what you need  
and we'll do the layout at no extra  
charge - or supply your artwork in  
a standard PC file format.

★ **High resolution**

600 dpi print quality means  
that every stamp impression  
will be clear, clean and sharp  
- great for logos and even  
photographs!

★ **Large choice of sizes**

With three colours (black, blue or red)  
available in 11 different sizes, there's a stamp to  
meet every need.

★ **Pre-inked and ready to go**

All stamps are pre-inked and refillable which means  
no messy ink pads are needed. The ink is also fast  
drying to prevent smudging.

★ **Durable, easy to use**

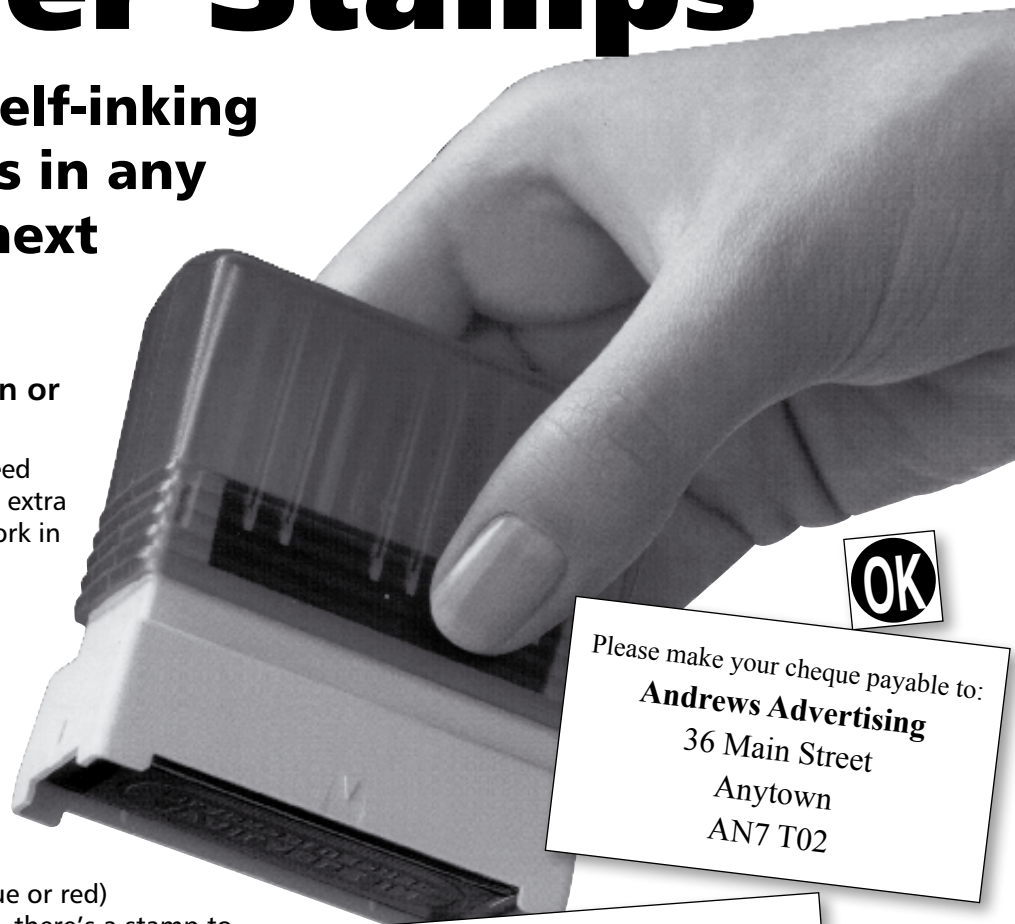

The surface of the stamp has been created using  
a durable rubber that helps extend the life of the  
stamp. All stamps come with a snap-on cover for  
clean, easy storage.

★ **Next day delivery included**

Order and pay for your stamp before 3pm and we'll  
manufacture and post it the same day via Royal  
Mail 1st Class post free of charge - you'll receive it  
the next morning!

★ **The price you see is the price you pay**

Design is free of charge and we deliver for free -  
so there are no extra charges.
